EuroGastro and WorldHotel quality determinant in the industry

EuroGastro and WorldHotel has been the leading trade fair in the HoReCa market in Poland. It is an international event that attracts hundreds of exhibitors and thousands of visiting professionals, as well as distinguished chefs, confectioners and culinary personalities and world-famous experts on coffee, baristas and bartenders.

It is organized with the support of the most important associations and institutions and in cooperation with prestigious industry magazines and portals. An intrinsic part of the fair are the prestigious cookery competitions organized by eminent master chefs and the Coffee Olympics® contest under the auspices of SCAE (Speciality Coffee Association of Europe). The fair is accompanied by an extensive programme of industry workshops and training sessions, as well as business meetings for managers.

The exhibitors point out notable benefits of participation in the fair, i.e., hundreds of new business contacts. It is where they meet their former partners, but, above all, they acquire new customers in order to develop their businesses.

Comprehensiveness **5** distinct theme sectors:

 Kitchen facilities: equipment, furniture and accessories, cleaning supplies, kitchen apparel, computer systems and consulting services

 Coffee: a full range of devices and products for professional brewing and serving coffee

 Drink & bar: spirits, wines, tincture, beers, equipment and accessories, products and semi-products necessary for drink preparation

 Food and beverages for gastronomy: fresh and frozen products and semi-finished products, as well as additives to create the dishes, pastries and desserts in catering services

 Hotel, bar and restaurant equipment: tableware and napery, furniture and interior decoration.
